HORN SPEAKER SERIES (2019)

HORN SPEAKER SERIES

AYZO range of waterproof Horn Speakers are designed for long-range applications & offer a wide frequency range for rich sound distribution & acoustic quality. We offer a wide range of speakers from 15W to 100W with all having a direct connection to 100V line output. They are ideal for stadiums, factories, playgrounds, car-parking, exhibition areas etc which demand an even distribution of high-quality sound. Available in both ABS plastic and Aluminium variants.
